BE CAREFUL IN ACT

AND SPEECH

The Interior Journal hopes there is no German in Lincoln county who would by speech or deed cause the native-born to lose that exalted opinion now held for them. There may come a time, and that time may be here, when those from the Fatherland feel that they are not in accord with what this country is doing to preserve the honor and dignity of the flag. It is hoped that there lives no man of foreign birth in this section who endorses Germany's submarine warfare, which has cost the lives of so many Americans, but should there be, it would be well for him to ponder before he puts his feelings into words or actions. The American people are in no humor to take insults. Their patience is already thready. The large majority are in thorough accord with President Wilson's course calling for war on Germany and means with which to wage that war, and criticism of the President's action in the premises is not relished by patriotic citizens. Silence is thrice golden just now. If our friends from across the water can not be loyal to the flag they live under, they can at least refrain from taunting those who are, and they should do it. Besides, Uncle Sam, as well as the State authorities are taking pains that no overt act go unobserved. Bridges, public buildings and the like are being guarded, while secret service men are doing duty in every county in State and nation. This paper wants to see no one get into trouble. It is just as friendly to the man from Germany as it is to him who was born under the stars and stripes, so long as he is a good citizen. Its mission is to give news and do all the good it can. It feels that it is its mission to warn where there is danger. It proposes to do its duty now because it believes there's danger ahead for those who speak irreverently or act with impetuosity.

COUNTY LEVY FIXED AT 50c.

At the meeting of the fiscal court Tuesday Judge Bailey and Magistrates Dudderar, Helm and Peirey were present, Magistrate Camden, of the Waynesburg district failing to answer roll call. The county levy was fixed at 50c and is divided as follows: 23 1-4 for general maintaining and keeping in repair turnpikes and county roads; 18c for general expenses; 1 1-4c for paying interest on courthouse bonds; 3c for sinking fund for courthouse bonds; 2 1-2c to create sinking fund to mature old turnpike bonds; 1-4c for interest on turnpike bonds; 1 3-4c for grading the Waynesburg and Somerset pike. A school tax of 15 cents for non-residents of graded school districts was imposed.

Cashier W. M. Bright of the Lincoln County National Bank, was elected treasurer over Cashier H. C. Brughman, of the First National Bank. Mr. Bright paid \$625 for the privilege. His opponent's bid was \$600.

The court redeemed two old turnpike bonds of \$1,000 each. These bonds were not due until 1919.

A new motor truck for the county was ordered purchased; the old one going in as part payment on it. An allowance of \$899.75 was made on the old one, and the new one is to cost \$3,349.75, or \$2,450 more. The vote on the proposition stood: Helm and Peirey for and Dudderar against. Judge Bailey had no vote in the matter.

The regular allowance was made for paupers.

Dr. J. G. Carpenter, president of the Board of Health of Lincoln County, asked an increase of his salary of \$150 per year, but the members of the fiscal court declined to grant the raise.

MARSHAL POYNTER ACQUITTED

Marshal James Poynter, of Crab Orchard, had his examining trial before Judge James P. Bailey Thursday morning and was acquitted of the killing of Leonard Hopkins and the wounding of his brother, John Hopkins, at Crab Orchard Sunday afternoon, March 26th. The trial lasted but an hour and a quarter, and only five witnesses testified. It was proven by James Rogers, J. H. Hustle, J. Thomas Cherry, Galen Rogers and James P. Jones that Leonard and John Hopkins were acting in a disorderly manner and that when Marshal Poynter was informed of it, he went to quiet them. As he approached, John Hopkins, with knife in hand, advanced towards him and Leonard Hopkins told him if he came further he would shoot him. This did not deter Poynter, who went on toward them. Leonard Hopkins fired, the bullet knocking the officer's hat to one side. Poynter then drew his weapon and fired, striking John Hopkins in the legs. Another shot entered the breast of Leonard Hopkins, killing him instantly. A second shot was fired by Leonard Hopkins, but no damage was done by it. It was proven that the Hopkins boys had acted badly before in Crab Orchard, and on one occasion they took the city marshal in charge and placed him in a stall in a livery stable. Attorney T. J. Hill represented the prosecution in the absence of County Attorney W. S. Burch who is ill; while the defendant was represented by Attorneys W. B. Hunsford, of Crab Orchard, and Joseph E. Robinson, of Lancaster. The defense offered no testimony and no speeches were made.

WONT SPEAK HERE MONDAY

Hon. H. Clay Kauffman, Garrard's Representative in the General Assembly, and candidate for Senator, writes this paper that he will not be here Monday, and hence of course, will make no speech. This paper announced several issues ago that the candidates for Senator would open the campaign here court day. Mr. Kauffman writes that in the first place he thinks it too soon to begin speaking and secondly he has duties at Frankfort to perform and must be there to attend to them. Both Messrs. Jay Harlan and J. R. Mount, the other candidates for Senator, had told the I. J. that they intended to speak here, and what change Mr. Kauffman's declaration to acquiesce will bring about remains to be seen. Monday promises to be a big day in Stanford, with county court and the annual horse show.

SUNDAY NEXT IS EASTER

Sunday next is Easter. Are you ready for it? Have you a new hat or dress for the day? Well, the Interior Journal hopes you have both and that you will have a perfect day to wear them. The good women look forward to Easter as does the child to Christmas. It is the time of all to wear the newest and the best, and they will do so, it matters not the cost. That the coming Easter may be the brightest and happiest of all that have come and gone is the wish the "home paper" and the writer of this paragraph.

PATRIOTIC AND WIDE-AWAKE

The patriotic and wide-awake firm of Phillips & Phillips is giving to all who call a tiny silk U. S. flag, which is worn on the lapel of the coat. On St. Patrick's day they had everybody wearing shamrocks at their expense. These young men are hard to beat when it comes to progressiveness, but the wonder to the writer is how they happen to think of all these things and at the same time keep their store looking so spick and span. The Phillips brothers are a lustling pair and they are as clever as they are energetic.

FISH GETS THE "DOPE"

The Louisville papers of Wednesday tell of Deputy Collector W. S. Fish seizing a large lot of "dope" in that city. The package had been sent to a Louisville party from Memphis and Mr. Fish got wind of it. He followed the delivery wagon to 1531 Crop street, where it was delivered and there took charge of it. The box contained many bottles of morphine.

THE LATEST WAR NEWS

The resolution declaring that a state of war with Germany exists, passed the House of Representatives at 3 o'clock this Friday morning, by a vote of 373 to 50. All amendments to the resolution were voted down without the formality of a rollcall. Pacifists under the leadership of Representative Kitchin, majority floor leader, were determined in their opposition, and debate on the matter lasted for seventeen hours, during the course of which opinions of nearly every Representative were aired. The resolution will be signed by President Wilson as soon as the Vice President Marshall has affixed his signature in the Senate.

The resolution empowers the President to use the full strength of the army and navy and all other resources of the country in waging the war against Germany to its termination.

Austria-Hungary will break diplomatic relations with the United States as the result of strong German pressure, is the report conveyed in a dispatch from The Hague.

In their operations between the Somme and the Oise the French captured a dominating position of much importance along the line of the villages of Grugies, Urville and Moy, running from south to southeast of St. Quentin. The War Office also officially reports the precipitate withdrawal of the Germans from three lines of trenches north of the Folie farm, in the same section, under an irresistible attack.

Reports that German agents are working in Southern States, particularly in the tobacco and cotton belts, to incite negroes against the United States Government, were confirmed by Government officials at Birmingham and in Louisiana and Mississippi.

The sinking of a German submarine which attacked their ship sixty miles off Queenstown, Ireland, was reported by officers of a British steamer on arrival at St. Johns, N. B. The Belgian steamer, Trevier, with a cargo of Belgian relief supplies, has been torpedoed without warning off the coast of Holland. The crew was saved.

British and French troops closing on St. Quentin have taken additional villages and points of support from the Germans. Attacking on a front more than eight miles in length, south and southwest of the harassed German stronghold, the French troops, notwithstanding stubborn resistance by the Germans, everywhere met with success, taking strongly-organized positions and villages, among them Dalon, about two miles southwest, and Giffecourt, two miles south of the town.

Congress will face the task shortly of raising \$3,000,000,000 to meet the initial expenses of United States participation in war. Incomes and excess profits probably will bear the burden. It is planned to lower the exemption on incomes of unmarried men to \$1,000 and married men to \$2,000 and double the rate.

Most of the pacifists who went to Washington under the guidance of the Emergency Peace Federation to protest against war returned to their homes, convinced that their efforts were useless. Headquarters of the federation were raised several times by citizens and guardsmen who demanded that the place be closed. Removal of Senator Stone from the chairmanship of the Senate Committee on Foreign Relations was demanded by citizens of Mt. Sterling, in mass meeting assembled.

FLAG FOR EACH SCHOOL

Superintendent Garland Singleton has received from Superintendent of Public Instruction V. O. Gilbert, a copy of the Senate resolution passed on March 30th, requesting the Boards of Education and County School superintendents to purchase sufficient United States flags to have one for each school-house and have the flags hoisted as soon as possible. Attorney General M. M. Logan has ruled that the purchase and raising of the flags may be legally paid out of the county school fund, and Superintendent Singleton will at once procure the flags and see that they float from every common school building in Lincoln county. Mr. Gilbert writes Mr. Singleton as follows: "It is logical and fitting that we school people should be first in patriotism, not only by precept, but example. Our country needs us. The spirit of freedom for which our fathers died is at stake. Let us as Kentuckians meet the obligation fully, even to the death."

MRS. JAMES W. ALCORN DEAD

Stanford was saddened late Thursday afternoon, when it was announced that Mrs. James W. Alcorn was dead. Few knew of her serious illness, which made the shock the greater. Some ten days ago she was taken with a cold which developed into pneumonia, and the end came suddenly. For the past three years Mrs. Alcorn had been afflicted with rheumatism, its hold upon her system deepening all the while, ultimately reaching her heart and involving her constitution. Her feeble condition compelled her to remain in doors except on mild, pretty days, and during the past winter she had been kept even more closely than usual. This tended further to enfeeble her, rendering her less able to resist any attack of sickness. It is not strange then that pneumonia did its work quickly.

Mrs. Alcorn, who was Miss Sophia Kindrick, daughter of the late Judge John S. Kindrick, was born in Pulaski county on May 28, 1842, and was married to James W. Alcorn, who died June 28th, 1914, on Sept. 13, 1865, at the home of the late T. M. Pennington, near Stanford. Her mother died when she was two weeks old, and having neither brother nor sister, she was reared by her aunt, Mrs. Bourne Goggin, of the Pisgah section of Pulaski county, and no child was ever more lovingly watched over than she was by this good aunt. Her father died in January, 1899. Mrs. Alcorn's mother was Sophia Ann Fox, daughter of William Fox and Sophia Irvine Fox, of Somerset.

The children who survive Mrs. Alcorn are: Mrs. J. N. Saunders, Misses Kate, Pattie and Sophie Alcorn, and Kindrick S. Alcorn. Maggie Alcorn died in her infancy and Miss Mary Alcorn, who married G. T. Lackey, died July 19, 1903.

She had been a member of the Presbyterian church for 30 years. Previous to that she had declared her faith under the preaching of Rev. George O. Barnes. She was intensely interested in her church and gave liberally of her time and means for its furtherance.

Mrs. Alcorn was especially interested in all matters pertaining to the cause of the South, and had been since its organization, president of the local U. D. C. chapter. She was distinctly Southern and there were none who loved the "Lost Cause" more than she.

Funeral services will be held at the late home on Danville avenue at 3:30 Saturday afternoon by her pastor, Dr. P. L. Bruce, after which the remains will be laid by the side of those of her husband in Buffalo Springs cemetery.

The removal of Mrs. Alcorn from earthly scenes is a distinct loss to the community. She was foremost in every good work; a friend to the poor and needy and a very present help to those in trouble. She was a model wife and mother and her home life was beautiful. The home is made desolate by her taking away; her children and loved ones are crushed by her removal. May a good God give them strength to bear the burden and cause them soon to realize that their loss is her eternal gain.

CAPITAL HOTEL BURNS

Frank C. Dudie, of Fairmount, W. Va., a newspaper man is dead as the result of fire that destroyed the historic Capital Hotel, in Frankfort yesterday afternoon. Among the many who had narrow escapes from the suffocation and injury were Lieut. Gov. James D. Black and members of his family, Representative Mazyck O'Brien, of Louisville, and the Courier-Journal correspondent.

This fire is but another reminder of the necessity of carrying an insurance policy. It is safe to say that the Capital Hotel was well insured. Take care of your property by having Jesse D. Wearen, the Stanford Insurance, write you a policy on it.

MRS. W. O. MULKEY DEAD

The remains of Mrs. W. O. Mulkey, whose death occurred at Osceola, Arkansas, were brought to the home of her mother, Mrs. Bettie Miller, in Danville, where the funeral was preched Monday by Mrs. Horace Kingsbury, of Danville and F. M. Tindler, of Lancaster. The burial occurred at Lancaster. Mrs. Mulkey is survived by her husband and three children. She was related to the Underwoods of this county and was a most excellent woman.

GARDEN SEED

Congressman Harvey Helm has sent the Interior Journal a sack of garden seeds which may be had by those who call. Only one package will be given to one person.

Adam Voss, aged 80 and for many years a member of the Society of Shakers at Pleasant Hill, is dead.

"I will fight when you want me," vowed Jess Willard, the world's champion pugilist, to President Wilson.

Mrs. Daniel H. Bostock, of New Albany, died of injuries, bringing the total number of deaths from the tornado to forty-one.

A large and valuable stock barn on the farm occupied by George Ruble, near Buena Vista, was destroyed by lightning.

John Walker, colored, aged 10, shot and killed his father while the latter was beating his mother. The tragedy occurred near Richmond.

The railroads of the country have worked out a plan with the Quartermaster General whereby the entire rail transportation facilities of the nation will be at the disposal of the Government.

The business of the Mercer National Bank, of Harrodsburg, has so greatly increased that it has been necessary to add another room to the banking house.

Julius Rosenwald, president of Sears, Roebuck & Co., has notified the American Jewish Relief Committee that he will give \$1,000,000 to feed and clothe Jewish war sufferers.

O. D. Jones, of Lexington, this State, arrested at Pomona, Cal., on the charge of kidnapping two Cincinnati youths, attempted to end his life in his cell at Los Angeles by setting fire to his clothes.

Citizens of Chattanooga, in mass meeting assembled, adopted resolutions pledging their support to the government. One clause of the resolutions reads: "From now on there are only Americans and traitors."

Drawing a revolver in the courtroom at Hanford, Cal., L. P. Denny, a business man, shot and killed George Meadows, E. T. Cooper, an attorney, and a third man named Wiley. Denny then ran into the street, where he was shot dead by a constable.

The Oliver Referendum Bill, having been passed by the Kentucky Senate, now requires only the signature of Gov. Stanley to make it a law. A Conference Committee's report relative to a compromise on the Tax Commission Bill will be concurred in by both houses, it is expected.

The Pickett Bank Deposit Bill, providing for a 10-cent State tax on each \$100 for money on deposit in banks, was passed in the Senate by a vote of 27 to 6. The principal question to be answered was whether the banks may and shall charge the amount of the deposit tax to the accounts of individual depositors. The bill, as passed by the House, provided that the tax may be deducted by the banks, but competition would force the bankers to pay the tax themselves, it is believed.

U. S. FLAGS FLYING

"Old Glory" floats from the post-office, the Masonic Hall and from a number of the business houses. The Masons bought a handsome flag and floated it to the breezes Wednesday. Just below the flag is a pendant bearing the letters "F. & A. M." Many of the more patriotic are wearing tiny flags in their lapels. War talk is almost the sole topic of conversation and much talk of organization of a company here is indulged in.

NEW GILCHER OPENED

The new Gilcher hotel was formally opened to the public Tuesday at Danville. More than three thousand citizens visited the establishment during the afternoon and evening and were more than delighted with the beauty and convenience of the building and furnishings. The building throughout had been artistically decorated and presented a most charming appearance.

Mississippi Farm Lands For Sale

Good Quality—Terms Easy

A trip through different sections of the State of Mississippi and an observation of agricultural conditions there has convinced me that it is the place at the present time to secure the best land values at the lowest prices—from \$5 to \$50 per acre, some of them near a city, with six trunk line railroads; and as large as Lexington, Kentucky, where lands are selling at \$300 per acre—by those seeking homes or investments in good farming lands.

Believing that it would be of mutual advantage and profit to those seeking homes or investments in farming lands, at lower prices than are possible in this section of Kentucky, where land values have advanced beyond the reach of the farmer of moderate means, I have associated myself with several responsible gentlemen in the state of Mississippi and am in position to offer some very attractive propositions to those seeking investments of this character, on easy terms, aided by the "Federal Farm Loan Act."

These lands, due to the short winter season, and long grazing periods are especially adapted to stock raising and diversified farming; are well located as to churches, schools, shipping points and markets; are situated on improved highways and are well watered, either by streams or artesian wells.

Almost every character and kind of crop that can be raised in Kentucky can be raised profitably in Mississippi.

Cheap railroad rates for home-seekers can be obtained by those desiring to look the situation over. I shall be pleased to give further information to any one who is sufficiently interested, that will call to see me or write to me at Stanford. HARVEY HELM.

THE FOLLOWING IS A BRIEF DESCRIPTION OF A FEW TYPICAL TRACTS OF LAND FOR SALE:

Tract No. 1—2300 acre stock farm, 9 miles from Jackson, Capital of the State, on Q. & C. Ry., one-third under cultivation, balance timber and pasture lands, 10 tenant houses, mostly fenced, located in county that has recently voted bonds for pikes, which will be constructed very close to this tract. Price \$12.50 per acre.

No. 2—621 acres, 3 miles from county seat of 6,000 inhabitants on a good gravel road, large portion under cultivation, balance is splendid pasture land, watered by creeks and ponds, nice dwelling with modern improvements and number of tenant houses. Price \$30.00 per acre.

No. 3—1675 acres, two miles from Capital, 700 acres under cultivation, balance fine pasturage, running springs, large dwelling but in need of repair, with probability of pike passing immediately in front of it. Price \$15.00 per acre.

No. 4—1235 acres, 8 miles from Capital, eight room residence, large barn, 16 tenant houses, plenty of water, well fenced, one-half mile from gravel road, undulating, all except 50 acres under cultivation. Price \$20.00 per acre.

No. 5—1,000 acres, on Q. & C. Ry., 3 miles from shipping point, halfway between Jackson and Vicksburg, two of the largest cities in State, 400 acres under cultivation, balance pasture and timber. Two manager's houses, and four tenant houses. Price \$20.00 per acre.

THAT BACKACHE

SPELLS DANGER

Action Today May Save Stanford People Future Misery

A bad back isn't a bad thing if it serves as a warning of hidden kidney disorders. Kidney diseases are frightfully common today. We often do so much. We don't give the kidneys a chance to rest up, and while a bad back, some bladder disorder, an occasional dizzy spell or a persistent headache may be the only outward sign, the kidney trouble that is behind it all may be overlooked or neglected. Put your signs to use. Take them as warnings. Fight off kidney weakness. It takes only a slight kidney disorder to start a case of fatal Bright's disease, from which 100,000 people die in the United States every year. Prompt treatment at first—that's all that's necessary to keep off gravel, dropsy, gout, heart trouble or Bright's disease. Use Doan's Kidney Pills—the oldest, the most widely used, the best-recommended Kidney Pill. Forty thousand Americans recommend them publicly. Here's one Stanford case:

Mrs. B. L. Fagaly, Lancaster St., Stanford, says: "A heavy dull ache across my back bothered me so I could hardly keep going to do my housework. I had nervous spells and dizzy headaches and my kidneys acted irregularly too. Someone in the family had used Doan's Kidney Pills so I got some at the New Stanford Drug Co. They soon relieved me of the backache and other signs of disordered kidneys." Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Fagaly had. THEY MAKE IT DEFINITE

It is apparent that Messrs. La Follette and Stone are unwilling that any patriots shall misunderstand just how they are actuated and what their label shall be in the pages of history yet to be written. Stone begs the question somewhat, but to no avail; while La Follette will be written down in terms which could be seen then now, might give him pause.

The actions of the obstructionists in the Senate, however, will have no effect save upon their reputations. Congress and the Government have heard the clarion response of the American people to the stern measure of war which now are being taken; and the people themselves soon will have too much to think of to be wasting time over these slackers.

La Follette and Norris and Gronna cannot longer mislead foreigners into the error of holding the United States a nation of poltroons. As a matter of fact, the belligerent countries all are cursed with families and shirkers as well as the United States; and they regard the exhibition of the "little willful men" more in sympathy than with criticism of the great nation which they disgrace. It is rather too late for them to damage us now.—Louisville Times.

RUSSIA'S ROYAL FAMILY

A summary of the cost of maintenance of the royal family of Russia has been made public for the first time. It shows that more than \$20,000,000 a year was made up by State contributions for the use of the royal family. Among the items are \$600,000 for autos and carriages.

Beginning on the evening of April 15th, there will be a week's meeting at the Christian church conducted by our pastor, Rev. Pervis, without any charge to the church for his service. Everyone urgently requested to attend.

Mrs. Kate Egbert, who was one of the members of the first Ladies Aid established at the Christian church here, read an interesting paper at our last meeting which met with Mrs. Cherry Monday. The first Aid was organized April 7, 1889 with twenty eight members. Of that number only four are left here at this time—Mrs. Egbert, Mrs. Emma Farris, Mrs. Claudia Holman and Mrs. Bettie Buchanan. Death has claimed eleven and the rest are in distant states. Our present Aid numbers nearly forty members and is actively engaged each Monday afternoon doing a big amount of fine work.

Dr. Henry Williams of Shelbyville accompanied his aunt, Mrs. Mollie Burgin home and has arranged everything for her comfort. He returned to his home Wednesday.

We failed to mention the burial of Aunt Susan Jones, colored, who died last week. She was nicely prepared for burial and many of her white friends regretted her death.

The Circle of the Lancaster Christian church entertained the "Martha Circle" of this city at Lancaster Wednesday.

Mrs. Mary Culton came from Louisville Wednesday and will occupy rooms with Mrs. L. F. Jones until her house is completed.

Red Blooded Americanism Coming to the Front

Right now this country is culling for men of stout hearts and sound bodies. It needs them to keep Old Glory triumphant and unsullied in the air.

The exigency now confronting us emphasizes, as nothing else could do, the importance of good health, both as an individual and national asset.

It gives point to the suggestion, often emanating from this office, that everybody should guard their health as a priceless possession. When you find yourself running down and not exactly keyed up to the fighting pitch, as is the case with everybody at times, you ought to come to Nature's relief and take a course of

THE PRESIDENT'S MASTERLY MESSAGE

Patient and long suffering even beyond human endurance almost over wrongs committed against this country and civilization generally, impervious alike to the criticisms of the jingoes and the appeals of the pacifists and imbued with the supreme desire of keeping this country out of war with Germany if with honor, his motives often impugned and his efforts maligned, President Wilson governed solely by patriotism and consecration to his country's service, finally made up his mind that indignities and insults had reached the limit and calling congress into extraordinary session went before it and after reciting the crimes that have been put upon us in words that burn, asked the body to declare a state of war with Germany and give him every means necessary to bring it to early and successful conclusion. The masterly address, with its full recognition of the terrible consequences that hang on such a declaration, forgetful of self and every other consideration but justice, Democracy and liberty, will rank as one of the world's greatest state papers and stamp the president as the grandest man that the country has produced in this generation, if not in any generation.

In both houses of congress following the night of the delivery of the message resolutions in conformity with the president's demands were introduced, but the foreign committee in the house not having been fully organized and the impious La Follette objecting to immediate consideration in the Senate, such action went over till Wednesday.

We had hoped and prayed that this country would be spared the horrors of war but since it seems that it is not to be, the whole people must stand by the president and uphold his efforts, satisfied that he will lead us in the paths of right to victory and lasting peace. There must be no divided allegiance but unity of action, fixity of purpose and broad patriotism must animate the breast of every man worthy the inheritance of the land of the free and the home of the brave, and our beloved country will maintain its reputation of never having known defeat.

An unfortunate controversy threatens to do much injury to that great institution of learning and biblical teaching, Transylvania College at Lexington. A number of students join in a statement, which is corroborated by at least one of the professors that several of the faculty have departed from the faith of the founders of the college and are heterodox in their views. They deny according to the statement the inspiration of the scriptures, regard the first chapter of Genesis as a poem and name an unpronounceable animal as the missing link of the human race. President Crossfield and the other members of the faculty involved have issued a statement denying the charges and an investigation will likely follow.

When Alexander Bannwart, the pacifist delegate who was knocked down by Senator Lodge in Washington City a few days since, was arraigned in court he stated that he had been convinced of the error of his way by the strong speech of President Wilson on the subject of war. That all may sound very well—and while in no sense reflecting

McRoberts & Bailey

on the soundness of the president's address, we are constrained to the belief that the strong arm of Senator Lodge had much to do with Hannan's change of heart, to say nothing of the change in his facial appearance, as the direct result of coming in contact with the Senator's good right fist.

Two women and one man are announced for superintendent of schools in Fayette county. The present incumbent, Mrs. Nannie G. Faulconer, who desires to succeed herself, has held the office for several terms and made such a splendid record that if there is any appreciation of faithful services she will win hands down. Mrs. Faulconer, who was a Miss Gustineau, lived in Lincoln and Pulaski counties during her parents' life time and we therefore feel much interest in her success, especially as she has demonstrated that she is so worthy of the honor she again seeks.

We do not believe that the German people want to fight us any more

than we want to fight the German people, for whom all entertain the best feelings. As the Courier-Journal very aptly says: "The war which impends is not a war between the people of the United States and the people of Germany. It is a war between the people of the United States and the Hohenzollerns—between the people of the United States and the Hapsburgs—between the principle of Democracy and the principle of Absolutism."

The senate passed the tax commission bill but with a number of changes which will have to be agreed to by the house before it is ready for the governor's signature. The administration forces have had a hard fight but have been victorious all along line. The anti- Stanley will get the benefit of a law that may lift the state out of debt, have used every means to defeat the bill, playing politics when the highest consideration should have been for the good of the debt burdened state.

So great is the fear, which seems to be well founded, that bridges and other property will be destroyed, that four companies of state guards have been called out to guard them along the line of the C. and O., while the state capitol and other public buildings at Frankfort are constantly guarded. The country is in a state of war whether it is declared or not.

The Georgia Legislature has passed the most stringent prohibition law ever enacted. Not a drop of liquor is permitted even for personal use. This kind of bone dryness wont suit the average prohibitionist, but it is the only way to enforce real prohibition, as then no excuse can be advanced for having liquor in one's possession.

Mr. Myers send his regards to his many friends back in Lincoln.

J. J. Painter, who with his family left last week for Durango, Col., to see his sister, who is very ill, writes from Pueblo, that they arrived there safely after a pleasant trip. He says the weather is fine, but that there is a heavy snow in the mountains. Mr. Painter tells of a patriotic parade he witnessed Sunday. There were over 12,000 people in it, he says, and the principal streets of Pueblo were paraded, each person carrying a U. S. flag.

"Kio-Yio-Yio! Get Me 'Gota-It' Quick!"

3 Drops Make Corn "Fall" Off!

"I've joined the Never-Again Club. Never again will I use anything for corns but 'Gota-It.' Put 2 drops of 'Gota-It' on, and from that second the corn begins to shrivel."

"Oh, Don't Touch It! It's So Sore!" "Use 'Gota-It' and It Will Never Be Sore!"

Instead of swelling up like a little white sponge. Then it loosens from your toe—and, glory hallelujah! the corn comes off as though you'd take a glove off your hand!

Yes, "Gota-It" is the corn discovery of the age. Mrs. "Gota-It" is sold by many times than any other corn remedy in existence. Try it and you'll know the reason why. It takes two seconds to apply it, and it dries at once. That's all. Don't experiment—follow the experience of millions and use "Gota-It." "Gota-It" is sold everywhere. See a bottle, or send on receipt of price by E. Lawrence & Co., Chicago, Ill.

Sold in Stanford and recommended as the world's best corn remedy by The Lincoln Pharmacy and The Penny Drug Store.

Making Money!

Some men make their money in business—some in stocks—some by toilsome saving of their daily wage. But we submit to you the fact that more men here reached a comfortable competence thru the ownership of property—houses and land which bring in a fixed income—than in any other way.

Business requires your sole attention—stocks means sleepless nights and days of worry—property works by itself for you without your care.

HE FEELS FRESH AFTER HIS WORK

Frankfort Man Can Now Go All Day Without Getting Tired.

THANKS TANLAC FOR CHANGE

"My digestion is fine," said Houston Beauchamp, Frankfort, in telling how Tanlac brought him back one of the greatest pleasures known to all mankind—that of being able to enjoy good cooking. He said:

"After an attack of the grip I was all run-down. Everything I ate disagreed with me. Food lay heavy on my stomach. Since taking Tanlac I am so much better I can eat almost anything without being sick afterwards. My digestion is fine."

"I can do my usual daily work and it doesn't tire me out as it used to. I am glad to recommend Tanlac as a splendid tonic and system purifier."

Thousands of others who have felt like Mr. Beauchamp have had this same experience with Tanlac. When the system is all run down and the stomach and other internal organs do not do their work properly nature needs help to get them back in good working order.

When food scours on the stomach, causing gas that makes you bloated and belch, it is time to take care of it. Dizzy spells, headaches, sleeplessness, bad breath, coated tongue and that tired feeling are almost always sure to follow if the trouble is not stopped at its source. If you are not feeling right get Tanlac today. Don't put it off, as delays in health matters are dangerous.

Tanlac is sold exclusively in Stanford at The Penny Drug Store, E. R. Coleman, Proprietor.

MADE THREAT; GOES TO PEN

Taking the stand that any man who gives expression to a threat against the life of President Wilson should not be permitted to be at large, Judge Rose in United States District Court sentenced Amos H. Pauls, 62 years old, to the Federal penitentiary at Atlanta for a term of eighteen months.

Pauls is the first man to be convicted in the Maryland district under the recent act of Congress, which makes it a crime to threaten the President. The case was tried before a jury which reached a verdict within seven minutes.

Pauls was arrested at Union Station several weeks ago as he was about to board a train for Washington.

Try This! All Dandruff Disappears
And Hair Stops Coming
Out

Surely try a "Danderine Hair Cleanse" if you wish to immediately double the beauty of your hair. Just moisten a cloth with Danderine and draw it carefully through your hair, taking one small strand at a time; this will cleanse the hair of dust, dirt or any excessive oil--in a few minutes you will be amazed. Your hair will be wavy, fluffy and abundant and possess an incomparable softness, lustre and luxuriance.

Besides beautifying the hair, one application of Danderine dissolves every particle of dandruff; invigorates the scalp, stopping itching and falling hair.

Danderine is to the hair what fresh showers of rain and sunshine are to vegetation. It goes right to the roots, invigorates and strengthens them. Its exhilarating, stimulating and life-producing properties cause the hair to grow long, strong and beautiful.

You can surely have pretty, soft, lustrous hair, and lots of it, if you will get a 25-cent bottle of Knowl-ton's Danderine from any drug store or toilet counter and try it as directed. 28-1

GERMANS PAID IN VAIN

It is reported from Copenhagen that more than \$13,000,000 was paid by Germany to Russian commanders to betray their country and let the Teuton troops through the Russian lines. FRED JESSWINE, Crab Orchard, Ky., R. F. D. No. 1.

Voltaire
55140

VOLTAIRE 55140

Farmers don't you think right now is the best time to raise draft horses? The price was never higher than now, and our supply of work horses is at the lowest point it has been for years.

There are not more than half as many brood mares in the county now as there were five years ago. You can see that we are facing a horse famine. What are you going to do about it? Autos and auto-trucks are all right but you can't farm with them. You can't raise colts from your mules. It looks like the most sensible and business-like thing to do is to raise some good draft colts before your old brood mares are gone.

I offer for public service the champion draft stallion, Voltaire. He has proven himself to be one of the best breeders this county has ever known. He will make the season at my place on the Danville pike, one mile from Stanford at \$15 to insure a living colt; season due when colt is foaled or mare parted with. Will not be responsible for accidents should any occur.

KENTUCKY GENTLEMAN 5167
By Chester Peavine 3184 by Rex Peavine 1796 by Rex McDonald. First dam Flora Carter 8419 by Red Squirrel 53 by Black Squirrel.

I don't suppose there is a better bred horse in Kentucky than Kentucky Gentleman. He has been one

of the most successful horses in the show ring that this county has produced in years. He is just the right size for a saddle horse and his first colts which are four years old now are showing the saddle gait nicely.

The auto has put the light driving horse out of business to a certain extent, but you don't have any trouble in selling a saddle horse.

I am going to offer the services of this great horse at the extremely low price of \$15 to insure. I am giving you for \$15 what most men would charge from \$25 to \$40 for.

Do you appreciate it? If so send your best mares to the court of Kentucky Gentleman and let him get you a nice colt.

J. NEVIN CARTER, Stanford, Ky.

EXCELSIOR THE ROYAL JACK

Hear Ye! See Me! The "Royal Jack," "Excelsior," I again appear before the public for close scrutiny and admiration and abundant service, and am opposed to the cost of high living and place my charges where the farmer of moderate means can do business with me at the "low cost of living prices" as well as the rich. My progeny speak for themselves, selling my weanlings for \$65 to \$130, and at two years of age for \$200. Reference: Messrs. Bun Gaines, J. G. Livingston, J. H. Harris, Jacobum Retrofract, Wm. Long, Lute King, John Saylor, J. G. Carpenter and many others. I have all the markings, form, size, symmetry, bones, muscles, tendons, equipments and color true to my Jackship; am an athlete and possess the greatest agility and gambol over the green sward like a race horse, and have a musical supra-tenor voice, with a basso profunda alternations and bray the happy hours away; the pass word is Eureka; favorite songs, "Home, Sweet Home," and "My Old Kentucky Home." Motto: Get there Eli. I have aquiline eyes, pleasing countenance, style, typical head, ears, neck, shoulders, body, back, bones, hips, hocks, legs and feet, and caudal appendage. My keeper friend and guide is Thomas Mathewsclah Johnson.

Scientific breeders state the dam gives 70% of potency and propensity to the gametes; others say 50% of this power and force is given by the dam and 50% by the sire. Send me dams 16 hands high and that weigh 1,000 to 1,400 pounds, with good conformation and you will get mule colts that will weigh 1,200 to 1,400 pounds when matured with age. I arrange and fructify the gametes and nature does the rest for my nervous electro-ionic; my blood that of royalty; composed of the red, white and blue; rich in the "units" of "proximate principles;" my nerve cells are filled with prana; the results will be through electroplastic radiation and zygosis mule colts of the uniform size and type, for, style, action and beauty, and docility, perfect mules with the "esprit de corps" of their sire; no such word as "hors de combat" or fail, in my vocabulary of Jackology. As Sol Russell said, "when passing my way 'drop' over on me in peaceful valley."

My friend, "Romeo" the beautiful black registered Palangis Bovine, is doing business here, too--price \$1.00 at the lot, and the handsome Adonis, the equine male, well grown, in size, graceful and ideal conformation, will do service at \$7.00. We like competition, but, defy successful competition in our lines. To the victors belong the spoils. My price \$8.00. Very truly,

EXCELSIOR--The Royal Jack.

TWO GREAT MULE JACKS

W. R. GAINES, Crab Orchard, Ky.

ALMONT DARE

Almont Dare, 3228, is a rich red bay stallion; 16 hands high with good bone and fine style. Is extremely fast both under saddle and in harness. He is a full brother to Toxy Dare that won the championship for saddle bred brood mares at the Kentucky State fair in 1914, defeating Edna May and others and to Nettleton that sold for \$3,600 and others at \$1,500. He is the best one of the lot. His colts have frequently defeated the colts of sires standing as high as \$75. Have sold his colts myself for \$500. Others claim offers of \$1,000. They also are the very best to use at home, being large, fine, game, durable and kind.

Will make the season at \$10 to insure live colt.

Bryan Breckinridge, my registered black jack, 16 hands with extremely large bone will stand for mares at \$10 for mare mules and \$8 for horse mule. Will also breed jennets any month in year at \$10 to insure colt. Have sold his colts for \$120 at weaning time. Grass furnished at \$2 per month and all stock entrusted to me will receive my personal attention but will not be responsible for accidents. Season on the above are due when colt is foaled or mare bred to other stock or stock parted with. All the above will make the season at my place, two and a half miles west of Hustonville, on Hustonville and Liberty pike. Pedigrees furnished upon request.

Keeps Her Children In Perfect Health

DR. CALDWELL'S SYRUP PEPIN THE FAMILY LAXATIVE FOR MANY YEARS

Mrs. Aug. Doellefeld of Carlyle, Ill., recently wrote to Dr. Caldwell, at Monticello, Ill., that she has used Dr. Caldwell's Syrup Pepsin in her home for a number of years, and would not be without it, as with it she has been able to keep her four children in perfect health.

Dr. Caldwell's Syrup Pepsin is a combination of simple laxative herbs with pepsin that acts on the bowels in any easy, natural way, and regulates the action of this most important function. Nearly all the sickness to which children are subject is traceable to bowel inaction and a mild, dependable laxative, such as Dr. Caldwell's Syrup Pepsin should have a place in every family medicine chest. It is pleasant to the taste and children like it, and take it readily, while it is equally effective for adults. Dr. Caldwell's Syrup Pepsin is sold in drug stores everywhere for fifty

cents a bottle. To avoid imitation and ineffective substitutes be sure you get Dr. Caldwell's Syrup Pepsin. See that a facsimile of Dr. Caldwell's signature and his portrait appear on the yellow carton in which the bottle is packed. A trial bottle, free of charge, can be obtained by writing to Dr. W. B. Caldwell, 405 Washington St., Monticello, Illinois.

Lee Ryder, of Maysville, owns a White Orpington hen that in the last two years has not perched on a roost at night. Bleucher 46158, record 2 20 14, trial mile 2 14 3 1, half in 1 06, last quarter in 32 seconds, is a handsome seal brown horse, and will weigh 1100 pounds. He greatly resembles his good sire Silent Brook and is out of a mare of the great Futurity sire Moke. Foreign demand has taken over one million horses from this country, and we may expect better prices for our horses in the future. Our advice to mare owners is to breed their mares and to breed them to stallions of merit and proven worth as sire Bleucher is just the type to produce the colts that will supply the demand. His colts have proven themselves with nice head and neck and plenty of bone and conformation.
